REACT JS DEVELOPER

A highly skilled and motivated Front end developer with almost 2 years of hands on experience in creating and deploying highly interactive and resposive websites . Seeking a challenging role in dynamic organization where i can utilise my skills and knowledge to contribute to the growth and success of the company and even learn new skills and technology from.

PROJECTS

MoviePlix   Jun 2023 - Jul 2023
- Developed a config driven movie trailer website for users to watch and browse latest movies and their trailer and latest shows.
- Utilized **TailwindCSS** for styling and used **React** for faster production and better build.
- Used **Redux** for state management and deployed the website to make it available for end users.
- Successfully implemented SEO best practices, resulting in better Google search indexing .

JobsShala   Jul 2023 - Aug 2023
- Created a job search website for providing one stop solution to get all the job posting through platforms like linkedin, internshala,etc.
- Utilized **Saas** preprocessor for styling and used **React** for development.
- Added **login/signup** feature for user authentication and also used Redux for state management.

MusicNow   Aug 2023 - Sep 2023
- Developed a ecommerce platform MusicNow using **React.js** and **TailwindCSS** ,and managed content with **StrapiCMS**.
- Designed the application in a responsive manner that is supportable on any device and integrated live search in it to search for particular products and browse to them. Used debugging for that.
